COMPAÑÍA MINERA PODEROSA S.A.

ISO 45001:2018

Issue 4

Detailed scope

Obtención de recursos minerales a través del empleo de métodos de exploración como: Actividades de prospección, perforación diamantina y labores de exploración, minado subterráneo desarrollando labores con métodos convencionales y mecanizados, procesamiento de minerales por cianuración, recuperación del oro por el método Merrill Crowe, cuyo precipitado se procesa en fundición obteniéndose el Bullón de Oro, el cual es refinado para su comercialización.

Obtain mineral resources by: Exploration methods like prospective activities, diamond drilling and others works; underground mining by developing mining labors with conventional and trackless methods; minerals processing by cyanide leaching, gold recovering by Merrill Crowe method, whose precipitate is processed in casting obtaining the Golden Bullon, which is refined for commercialization.
